Stick Around

Julian Lennon

If you want to tell me something new
I might stick around
If you want to say that I trust you
I might stick aroundBut if you disappear
Then nothing will be clear, ah
And if you go away
Then where am I to stay, ah
To stay, ahIf you say your love won't bring me down
I might stick around
If I kiss your lips just one more time
I could lose controlBut if you disappear
Then nothing will be clear, ah
And if you go away
Then where am I to stay, ah
To stay, ahIf I breathe your scent just one more time
I could be controlled
If you tempt me with your final sin
I could be controlledBut if you disappear
Then nothing will be clear, ah
And if you go away
Then where am I to stay, ah
To stay, ahBut if you disappear
Then nothing will be clear, ah
And if you go away
Then where am I to stay, ah
To stay, ahBut if you disappear
Then nothing will be clear, ah
And if you go away
Then where am I to stay, ah
To stay, ah
