

# Retro Love

## Manafest

It's been awhile now I've been searching thinking about  
Sin and drought, up and down spinning round, round, round  
Round, Round I haven't found it, truths alive don't doubt it  
Pounding down the doors & hallowing ow, ow, ow  
Slouched like a youth I found God in the room  
He said yo I know you, I got a girl for ye dude  
Am I high, am I dead, am I alive, is this real  
Can I touch can I feel, pinch me, oww yeah,  
Sat me down daps & pounds, showed me style  
Told me how, hold a second that's my girl  
I think I've figured out that a

I'm down with ye, down with ye  
I'll hit the town with ye  
Can I get some love yo hommie show me love

I'm down with ye, down with ye  
I'll stick around with ye  
Can I get some love yo hommie show me love

I, I, I want to show ye  
I think I'm ready for ye  
Just let the party music play  
I'm down with ye down with ye  
I got that sound for ye  
Just let the music play

I see it clear now her and I Cali style  
She is fine, she is mine, likes it when I drop a rhyme  
Chilling by the beach home  
Surfing or on skateboards  
Doesn't hurt that she's model  
Run way girl, Makes me holla  
We'll grow our family tree  
Little Mana's Melanie's  
Living free sipping drinks  
Coke and Ice bubble tea's  
God is watching over this  
Blessings is so obvious  
Call it bliss, call it crisp

This is how I want to live  
It's retro automatic, the love is so dynamic  
I'm dancing like an addict

I'm down with ye, down with ye  
I'll hit the town with ye  
Can I get some love yo hommie show me love

I'm down with ye, down with ye  
I'll stick around with ye  
Can I get some love yo hommie show me love

I, I, I want to show ye  
I think I'm ready for ye  
Just let the party music play  
I'm down with ye down with ye  
I got that sound for ye  
Just let the music play

But if you don't think your down with me,  
That's cool cause we can still be friends at least  
And a, we could just play Monopoly you'll see  
You'll get to know me uh huh, you'll get to know me, know me  
But I, I think you really might be right  
I think you might just be the guy for me, and you and maybe you'll give me a ride, home

This is my song, glad you all came along, sing it now  
Sing it loud
