

# War

## Sick Puppies

Let's do this

Faking falls

Stopping tall

Take it all

Fact is that I'm taking mine

I'm taking mine

Time is up

Out of luck

Should have stood up

But you're out of time

But you're out of time

Let's do this (fight, fight, fight)

Lock and load

Rock and roll

Bitch it's all over

You're going down

You're going down

Get ready to settle the score

And get ready to face the floor

Cause it's time to remember it (war)

This is war

And it's on tonight

So get up and fight

Get up and fight

You had all your life

To run and hide

Step up, step up

Let's do this

Sat around

Going down

How about a little reaction, man?

You can barely stand

Bitch slap, slow attack

Man that was practically suicide

Next in line

(Go)

Fight

Fight

Fight

Fight

Fight

Fight

Fight

Fight

Get ready to settle the score  
And get ready to face the floor  
Cause it's time to remember it (war)

This is war  
And it's on tonight  
So get up and fight  
Get up and fight  
You had all your life  
To run and hide  
Step up, step up  
Let's do this

Cause we're all about ready to break  
And we're all about ready to break  
Yeah we're all about ready to break  
Yeah we're all about ready to break

This is war  
And it never ends  
So get up, get up, get up, get up!

You had all your life  
To run and hide  
Step up, so step up

This is war (and it never ends)  
This is war (and it never ends)

This is war  
Let's do this  
Let's do this  
Let's do this  
Fight  
Fight

Fight  
Fight  
Fight  
Fight  
Fight  
Let's do this
