shark

The Miami Dolphins

Head is pounding in a daze
Bruised wrists and your body aches
If you be mine I'll be your mirror
Glide inside and pull your triggerViolent mind, violent mind, violent mind
Violent mind, violent mind, violent mindI know what you wanna do
We're on the line
I know what you wanna do
You got a violent mindI know where you're going to
Eyes black and wide
I know where you're going to
You got a violent mindHedonistic, narcissistic
Erotic, nihilistic
Pupils wide gonna slide inside
Gonna blow your mindViolent mind, violent mind, violent mind
Violent mind, violent mind, violent mindI know what you wanna do
We're on the line
I know what you wanna do
You got a violent mindI know where you're going to
Eyes black and wide
I know what you wanna do
You got a violent mindViolent mind, violent mind, violent mind
Violent mind, violent mind, violent mindI know what you wanna do
We're on the line
I know what you wanna do
You got a violent mindI know where you're going to
Eyes black and wide
I know what you wanna do
You got a violent mindI know where you're going to
Eyes black and wide
I know what you wanna do
You got a violent mind
