

Among Grim Shadows

Carnifex

Hours before the dawn when cold winds offered comfort
A darkness hangs in the air a seething for the night
The screams of fallen angels
I've learned to love it here
This is where the dark and hate await
My name written among the grim shadows
A poisoned heart now in attack
Tear past the flesh of life
A life buried in black
This castle courtyard, a theater for misery
A thrown to unseat the living
The lust of death burns in me
Welcome the night
Arise, the dead are upon us
And with them, my name written among grim shadows
Welcome the night
