

# Too Careful

## End of Fashion

Well, I'm not too lazy to care about that  
Sense of purpose, is getting me back  
Well, still I try and listen when you're mine  
I'm not too careful to care about you  
And God willing, neither were you

But still I try and rumble off my lines, well, listenBadly trained and nothing moreI'm not insane but I know I  
can behave

And be too careful than throw it away  
And this is how I stumble through my life  
Well, listenBadly trained and nothing more  
With a tail like a dinosaur  
Strange attitude to matchDon't need a reason, I know it sounds strange  
You be my reason you make me wannaBadly trained and nothing more  
With a tail like a dinosaur  
Strange attitude to match
