Blind Faith

Magenta

The last few breaths
looking back upon a time that shaped the past
A life of awe and wonder
A life defined

The days so fast
Who of us could see the path would lead to this
You were my faithful brothers
Come stand by me

You?re special
We trust, we give our lives
So special
We silence the doubt that you?ll be there

They shed their tears
Praying that the path they tread will guide them through
I close my eyes before them
In you we trust

You?re special
In faith I give my life
So special
We silence the doubt that you don?t care

Guide me to this promised land
From this life, guiding light
Oh, look into my soul
Show me it?s your truth

Hide the thought that it?s the end
Hide the fear, hear my voice
Hear me calling out
Lead me on
Take my hand
And take this pain away

Wake up
