Unsent Letter

Machine Gun Fellatio

I try to talk to you
And can't get past the weather
The friend I thought I knew
Found somethin' somewhere better
So I'm hangin' on your line
Thought we could speak together
Don't know what it is with you
You seem gone foreverI'm spending all my time
Driving 'round, faking clever
With a girl who seem alright
And another one who's better
I don't know if I lied
When I said we're not together
But I tried to talk to you
And somehow you seem gone...I know what could've been
Try not to think about it
Found it hard to live with this
Longed to live without it
My dreams have caught me out
I find myself surrounded
By the odds of our own ends
Enough said about itI'm spending all my time
Driving 'round, faking clever
With a girl who seem alright
And another one who's better
I don't know if I lied
When I said we're not together
But I tried to talk to you
And somehow you seem gone...I've given up some things
I guess that doesn't matter
Started other things
I guess that doesn't matter
I finally wrote your song
Another unsent letter
In a pile addressed to you
Care of something somewhere betterI'm spending all my time
Driving 'round, faking clever
With a girl who seem alright
And another one who's better

I don't know if I lied
When I said we're not together
But I tried to talk to you
And somehow you seem gone...I'm spending all my time
Driving 'round, faking clever
With a girl who seem alright
And another one who's better
I don't know if I lied
When I said that I'm together
But I tried to talk to you
And somehow you seem gone forever
Yeah, I tried to talk to you
And somehow you seem gone forever
Yeah, I tried to talk to you
Somehow you seem gone...
