

# Live Fast Die Young

[Aqua](#)

Whatever happens in the club baby - stays there  
I'm not gonna carry around my past  
I'm just not waiting till that something's gonna happen  
I'm gonna find it baby - trust meLive fast - die young  
All we are looking for is hope and glory  
Cause I was born - to run  
There's not a boring page in my life storyWhatever happens in my life baby - boost me  
There's not a second that i'll regret  
I'm just so full of life and ready to explore it  
And it all feels like - I'm ready to explodeI know that ever since that I was born  
I was ready just to party on - yeahLive fast - die young  
All we are looking for is hope and glory  
Cause I was born - to run  
There's not a boring page in my life storyWe're not gonna live forever  
Tonight is the night  
Whatever happens baby  
We are never gonna regret itI'm a little schoolgirl - in my daydreams  
Lighting up the candles - one by one  
Freaky giant doormen - coming closer  
Blowing out my candles - wake up nowWe are gonna live like there is no tomorrowLive fast - die young  
All we are looking for is hope and glory  
Cause I was born - to run  
There's not a boring page in my life story
