Worst Part

Breaking Pangaea

I wanted to tell you what it was
But I was afraid
I wanted to tell you it was love
But I was ashamed
I wanted to know
I wanted to see
I wanted the same as anyone
But all that you love
And all that you need
Are more than could come from anyoneAnd the worst part is having no idea
The worst part is having no idea she said to meI wanted to tell her everything
But then it was gone as soon as it came
How did it change
What did you see
And did I just get it wrongCause the worst part is having no idea
The worst part is having no idea
