Full Moon

Elvira

It's so hot, I'm burning up.
I wonder what i've got.
I don't know what or who's got into me.
I'm breaking out in high anxiety.
I'm all bound up and tied in knots.Get me to a doctor who can help me on the double.
I feel like a victim with the curse of female trouble.
Could this be the story of oh...or just my time of the month?
I don't know!Chorus:
Full moon, full moon, full moon
full moon tonight.Oh kiss me quick.
I'm coming on to you to do the trick.
Oh won't you please talk dirty to me?
Make it obscene or blasphemy.
My full libido's going wild.Enveloping the moon is such a hard act to swallow.
It's taking me to places where clothes wouldn't follow.Going down in dreams rated x.
Step right up, boy you could be next.Chorus:
Full moon, full moon, full moon
Full moon,
Full moon tonight.Rape, murder, arson and disorderly conduct.
Is there any other kind?Practically double during a full moon.
Along with suicide and of course an increase in your....sex drive...(oooh!)And we become more sensitive to combinations of certain drugs..and overdoses are more likely to occur.Along with insomnia, restless behavior, nymphomania, and an increase in your...what girls?
(Sex drive!)....That's right.The word moon comes from the latin word luna, you know, like in lunatic, lunacy, looney tunes.Or like in someone who is afflicted with an overpowering increase in their...sex drive! (oooh...)Lay me down and give me mouth to mouth resuscitation, i'm about to OD from this luna penetration.Time is coming in with a gush, in and out up and down, what a rush.Chorus:Full moon.Feelings getting stronger.Full moon, full moon tonight!Oh! My nails are getting longer!
Full moon!Going on the prowl.Full moon!Makes me wanna hooooooowl!Full moon, full moon, full moon, full moon tonight!
