

Anyone

Sugar Ray

Take, take what you want from me
It's my mistake if you let it be
And I don't think you even try And some miss and some get burned
You'll never know without a turn
That's how you learn, that's how you learn
Don't let it bring you down Anyone you can do it
If you want it then you got it
Anyone you can do it
If you want it then you got it I'm not meant to expired life
Your feelin' dead, your feelin' proud
And I don't think you even try Your fillin' holes with dreams and dust
Your feelin' quick without the trust
Be down again, be down again
Don't let it bring you down Anyone you can do it
If you want it then you got it
Anyone you can do it
If you want it then you got it Yeah
It's comin' around
Comin' around
It's comin' around
Comin' around
Yeah Give, give what you want to me
It's no mistake if you let it be
But I don't think you even try
Don't let it bring you down Anyone you can do it
If you want it then you got it
Anyone you can do it
If you want it then you got it yeah Anyone you can do it
Anyone you can do it
Anyone you can do it
Anyone you can do it
