

# Sweat (feat. Laidback Luke & Ms. Dynamite)

## Major Lazer

Nine nine nine cause I be so up  
I see the waist line fit like a backsh  
Like I'm not nothing to worry about  
Bucket get your check before the jet stuck  
Tic tic tic no really time  
Come on feel the bass, jam to make me way long  
What make me bass strong  
And tear the gate down, and take it straight down  
Now stop, boy you feel me?The real radio, you sweat  
The real radio

The radioEverybody down and under stop!Cyan stop til me see the sun shine and ring the alarm  
My never for the siren kill

Cyan stop jump with the hardcore winin up up up  
No stop the man firing  
Come depload, depload perfect timings  
Stands the close but don't stop the grinding  
Watch the right come quick, everybody dining  
Now just stopThe real radio, you sweat  
The real radio  
The radioThe real radio
