Eldest 11

They tell me I need rehab, but you're not really a friend.
You just criticize every step I give, but it's ok...
You don't understand the way I escape.I NEED to feel sick. I NEED to fall in LOVE.
I NEED to waste my days....
For me to live....Gotta love the drugs, they make me feel so numb.
Love the drugs, the way they make me feel I'm loved.
Gotta love the drugs...
(I'm not so uptight too get high when I need, a fix)
They make me feel so numb.
Love the drugs, they make me feel so numb.
(What I would do to you....)So I hide in the deep....
Where people won't talk shit and fucking love is cheap.
My blood soaks into the waters...
Little lies, stop fucking with me!I NEED to feel sick (I love to be sick). I NEED to fall in LOVE.
(I love to be sick)
I NEED to waste my days....
For me to live....Gotta love the drugs, they make me feel so numb.
Love the drugs, the way they make me feel I'm loved.
Gotta love the drugs...
(I'm not so uptight too get high when I need, a fix)
They make me feel so numb.
Love the drugs, they make me feel so numb.
(What I would do to you....)Gotta get a fix, gotta get a fix....
Put it in my blood. Nothing makes sense.
Nothing makes sense.Gotta love the drugs, they make me feel so numb.
Love the drugs, the way they make me feel I'm loved.
Gotta love the drugs...
(I'm not so uptight too get high when I need, a fix)
They make me feel so numb.
Love the drugs, they make me feel so numb.
(What I would do to you....)
