Scared

Ashanti

Ma, what's going on?
We sitting here man
Diggin' on each other
I'm feeling the shit out of you
You feeling the shit out of me
What you scared?
Don't be scared
It was around eleven thirty when I realized that I missed you
Sittin' at home all alone thinkin' what did I just do
Feelin' was strong comin' on and I knew I wanted you
Somethin' inside held me back boy you got me scared of you
Got me afraid to let my love go
Is it my heart that I should follow
Got me afraid to let myself go
Got me scared of you
Got me afraid to let my love go
Is it my heart that I should follow?
Got me afraid to let myself go
Got me scared of you
See, see what, what it's like, it's like
We got to get over this hump, Ma
Until we get over this hump
It is going to be fucked up
If I let go I don't know if my heart will remain strong
'Cause you're the type that just might give right and get me strong
I couldn't be just a girl that your're seein' once a month
'Cause if it goes down better believe I'm gonna be your only one
Got me afraid to let my love go
Is it my heart that I should follow?
Got me afraid to let myself go
Got me scared of you
Got me afraid to let my love go
Is it my heart that I should follow?
Got me afraid to let myself go
Got me scared of you
Should I let it go?
Should I let it go?
No no no no
Should I let it go?

Should I let it go?
No no no no no no
Should I let it go?
Should I let it go?

No no no no
Should I let it go?
Should I let it go?
No no no no no no
Got me afraid to let my love go
Is it my heart that I should follow?
Got me afraid to let myself go
Got me scared of you
Got me afraid to let my love go
Is it my heart that I should follow?
Got me afraid to let myself go
Got me scared of you
Got me afraid to let my love go
Is it my heart that I should follow?
Got me afraid to let myself go
Got me scared of you
Got me afraid to let my love go
Is it my heart that I should follow?
Got me afraid to let myself go
Got me scared of you
Should I let it go?
Should I let it go?
No no no no
Should I let it go?
Should I let it go?
No no no no no no
Should I let it go?
Should I let it go?
No no no no
Should I let it go?
Should I let it go?
No no no no no no
What's the problem, Ma?
I can see it in ya eyes
You want me just how I want you
But you still scared
You still scared
It's cool, huh
I'll be scared too
Fuckin' with a nigger like me

I'll be scared too
It's all right though
I'll wait on you
Just holla back all right
