

Somebody Put Something In My Drink

Ramones

Somebody, somebody put something in my drink, somebody
 Another night out on the street
 Stopping for my usual seat
 Oh, bartender, please
 Tanqueray and tonic's my favorite drink
 I don't like anything colored pink
 That just stinks, it's not for me
 It feels like somebody put something
 Somebody put something in my drink
 Somebody put something, somebody put something
 Blurred vision and dirty thoughts
 Feel out of place, very distraught
 Feel somethings coming on
 Yeah I kick the jukebox, slam the floor
 Drink, drink, drink, drink some more
 I can't think, hey what's in the drink?
 It feels like somebody put something
 Somebody put something in my drink
 Somebody put something, somebody put something in my drink
 Somebody put something
 Somebody put something in my drink
 Somebody put something, in my drink
 In my drink, in my drink, in my drink
 So you think it's funny a college prank
 Goin' insane for something to drink feel a little dry
 Oh I couldn't care what you think of me
 'Cause somebody put something in my drink
 I can't think, hey give me a drink
 It feels like somebody put something
 Somebody put something in my drink
 Somebody put something
 Somebody put something in my drink
 Somebody put something
 Somebody put something in my drink
 Somebody put something
 Somebody put something in my drink
 Somebody put something
 Somebody put something in my drink
 Somebody put something

Somebody put something in my drink
Somebody put something
Somebody put something in my drink
Somebody put something
Somebody put something in my drink
