Disappointed

[Nine Inch Nails](#)

If I were you, I wouldn't trust
A single word I say
I think by now you should know
Nothing's gonna changeCan I ask you something?
What did you expect?
So disappointed
With what you getDo you ever want to
Just get out of here?
So disappointed
Let's disappearLook at you, superman
With all the world to save
You think by now, you'd figure out
That nothing's gonna change
And I am part of the reasonCan I ask you something?
What did you expect?
So disappointed
With what you getDo you ever want to
Just get out of here?
So disappointed
To disappear
