

# Guess You Didn't Know (feat. Al Hudson)

## One Way

No  
Hoo hoo ohh ohh You and I  
Were together  
Blessed I felt  
Just being with you Then one day you up and said  
You were leaving  
I felt so hurt  
Thought of losing you  
That's why I [Chorus]  
Guess you didn't know  
That I loved you  
Guess you didn't know  
That I care  
[repeat chorus] I've always been afraid to let myself go  
Deep down inside  
Loved you so  
Now that you've gone  
And found somebody else  
It's too late now  
To show what I feel [Chorus] [repeat chorus] You really didn't love me  
Set my little heart on fire  
You don't know just what you do to me  
Girl  
I'm hurting so bad  
Now that you've gone and found somebody else  
I'm lost in a well all by myself  
No  
[Chorus] [repeat chorus] I was afraid  
Afraid to really let myself go with you  
It set my little heart on fire  
I'm lost when we're alone  
No  
You don't know  
You don't know just what you do to me  
No  
My love, my love, my love [chorus] Won't you give me just one more chance  
I'm so bad  
Without you girl
