

Little Bitty Kiss

Buddy Miller

All I wanted was a little bitty kiss
I didn't know it would get me like this
But when she took aim it was dead on
 It was too late to keep my head on
 My hand is steady and my nerves are steel
But that don't help if you ain't got the wheelThe way she smiled knocked me off a my feet
 She stole my heart and she didn't miss a beat
 I never even saw it coming
 Or I could of took off a running
 I should've seen I was over my head
But I just went a fell in love insteadLet me tell you mister she's so sweet
 I'm a goner I'm a little play toy
 She could make the devil turn the other cheek
Make a king wanna be her little shoe shine boyEvery time I try to back up I just trip
 I try to get away but the gears were stripped
 So here I am now saying I do
 Believe me when I testify to
 It was just a little bitty kiss on the lips
 But boy let me tell you loose lips sink ships
