Never Gonna Be the Same

Danny Wilson

I'm sorry for upsetting the apple cart
But the news is bad on Easy Street
You and I have driftâ€™ apart
And it's never gonna be the same

Tell your brother and your sister Ray
That I probably won't be â€˜round again
But Iâ€™ll always give them the time of day
Though it's never gonna be the same

Once there was an angel
An angel and some friends (who)
Flew around from song to song
making up the ends
People nowadays don't need them
People nowadays need people to blame

Once there was an angel
An angel and some friends (who)
Flew around from song to song
making up the ends
People nowadays don't need them
People nowadays need people to blame

Once a china cup is cracked
It can be made to look new again
And it may forever stay intact
But it's never gonna be the same
No, it's never gonna be the same
It's never gonna be the same
