

Summer Rain

Alphaville

World without a breeze
Heartbeat of the heat above the harbor
Lazy day lies dazed upon the shelf Atomic lizards lick at the blaze
Of a light that is forever
No move in the solid skies
No gleaming metal out of the breath taking blue My golden circus girls all sailed away
The lion tamers are no longer due to play
Whoever breaks the Seven Seals
And lets the angry angels free, I do not know Just waiting here for summer rain
For summer rain or anything else Prophet hold your head up into a cluster of bees
And listen, "Love of my life, here is all our, honey
Yes, we can change the world, together"
And if we're still invited to walk in this party I'd go for a saucerful of secrets or more
But the last thing I heard of was
That God had left the lines for a brand new universe
He was supposed to say My golden circus girls all sailed away
The lion tamers are no longer due to play
Whoever breaks the Seven Seals
And lets the angry angels free, I do not know Just waiting over there for summer rain
For summer rain, for summer rain
For summer rain, for summer rain What a glorious feeling?
(For summer rain)
I'm happy again
(For summer rain)
Just cool rain
