## **Summer Rain**

## **Alphaville**

World without a breeze
Heartbeat of the heat above the harbor
Lazy day lies dazed upon the shelfAtomic lizards lick at the blaze
Of a light that is forever

No move in the solid skies

No gleaming metal out of the breath taking blueMy golden circus girls all sailed away

The lion tamers are no longer due to play

Whoever breaks the Seven Seals

And lets the angry angels free, I do not knowJust waiting here for summer rain For summer rain or anything elseProphet hold your head up into a cluster of bees And listen, "Love of my life, here is all our, honey

Yes, we can change the world, together"

And if we're still invited to walk in this partyI'd go for a saucerful of secrets or more But the last thing I heard of was

That God had left the lines for a brand new universe He was supposed to sayMy golden circus girls all sailed away The lion tamers are no longer due to play

Whoever breaks the Seven Seals

And lets the angry angels free, I do not knowJust waiting over there for summer rain For summer rain, for summer rain

For summer rain, for summer rainWhat a glorious feeling?

(For summer rain)
I'm happy again
(For summer rain)
Just cool rain
