

# Forgive Me

[Donna Summer](#)

Every day I give you a reason to cry  
'Cause I see the hurt in your eyes  
But stronger yet I see the love that shines Help me learn to take on the nature of you  
And love more than I accuse  
And pardon others like you taught me to Something happens inside my heart  
Lord, when I obey  
Something happens inside my heart  
Every time I pray Forgive me as I learned how to forgive  
And reach out through the pain  
And touch with hands of grace Forgive me as I learn how to forgive  
And reach out through my own pain  
And touch with hands of grace As you prayed for those who crucified you  
Forgive they don't know what they do  
Compassion reached out to a world confused Help me learn to bless those who persecute me  
And pray for my enemies  
And show them mercy like you've shown to me 'Cause something happens inside my heart  
Lord, when I obey  
Something happens inside my heart  
Every time I pray Forgive me as I learn how to forgive  
The ones that broke my heart  
The way I've broken yours Forgive me as I learn how to forgive  
And reach out through my own pain  
And touch with hands of grace Forgive me
