

Don't Tread On Me

Sons of Liberty

Rising to the challenge is the first step that you take

Are you a free spirit or a slave?

Are the institutions that have molded our minds

Pushing an agenda filled with lies?

Have you ever asked yourself why things never change?

The rhetoric they speak is all the same

The men behind the curtain and the illusion they create

Pull the puppets strings and seal our fate[Chorus:]2X

Watch your step around me

I'm trying to live free

Push too far

We will strike, like a snake coiled up in the nightUntil we look beyond the throne where the power structure lies

We ll fight amongst ourselves as freedom dies

The only hope for human kind lies in solidarity

The strength in our numbers sets us free[Chorus]6x

Watch your step around me

I'm trying to live free

Push too far

We will strike, like a snake coiled up in the night
