

Miracle

The Corrs

You let an open window breathe over your bed
A whisper in the moonlight the miracle of life
Synchronized emotion no battle left to fight
Harmony in motion the miracle of life
And oh precious and lonely you are
Cherished as only you are
Not born but already changing our world
Beautiful girl, beautiful boy
(You're a beautiful, wonderful miracle)
I want for you the ocean
Filled deep with all your dreams
No feeling left unopened
The miracle of life
And oh so precious and lovely you are

Cherished as only you are
Not born but already changing our world
Beautiful boy, beautiful girl
(You're a beautiful, wonderful miracle)
Oh so precious and lonely you are
Cherished as only you are
Not born but already changing our world
Beautiful boy, beautiful girl
(You're a beautiful, wonderful miracle)
And when it comes to lovin'
We'll give you all we've got
Beginning at the bottom
We're never gonna stop, little one
