Hell No

Quadeca

(verse 1)
Limitless, the minute it finishes
I'm livin when it was swimmin
While Killin chillin and feeling rich
I'm only 14 far beyond my innocence
Vivid and viciousness
Overpowers me in a sense
I see visions provisions from the future
Can't sit back with no decisions like I used too
I used to sit on my computer
Still do the same thing but now I'm the producer
And now I'm building my own audience
Almost a hundred thousand
Started out with nothing and now I just climbed a mountain
Like how could that happen
It's a pure dream something that I could hardly imagine
I'm part of the magic the art of the passion
Is something so rare that it's hard to go grasp it
But you know I've accomplished it
Look at the numbers and stare at astonishment
Recently I'm living with this same familiar feeling that I'm living in a movie and im thinking that I'm dreaming
Now I feel like I am screaming when Im seeing all of these seasons but believing what I'm breathing cause no doubt I will achieve it
(Chorus)
Hell no
Hell no
I said no to the people around me
Hell no
Hell no
None of yall know nothing about me
Oh no
Oh no
I'm feeling the rythm in the down beat
So low
I'm so low
Opportunitys knockin loudly
(Verse 2)
I feel blessed but I'm a demon
I guess that is the reason

That success is why I'm leaving
Normal life that ain't appealing
But you know I'm never stealing
I am playing by the rules
Cause I've made them up and using them to make it past my school
I'm complacent when I'm facing
I am racing against the clock
My motto is I'll keep on grinding till I make it never stop
And I'm taking on a lot
And i feel like I can do it
Cause I made this beat myself
I just keep making improvements
It's so weird to think
Once things were all clear to me
I never tried to question them from what they would appear to be
But that's a losers game
The game of Life is such a confusing thing
Most of it's clues can never sooth the pain
But just look at each other and do the same
But imma take a different path
If it means I go broke I will live with that
Teresa taught man I'm in for that
When I take the shit I won't give it back
I got an odd mentality
Sometimes I think that life is really not reality
Successes definition has it got morality
Or just money money money money on the salary
Sometimes I feel like ive lost my sanity
Surging through my mind all across humanity
But I got my family and I got my health
Got everything I'd ever need but have i got myself
I gotta ask myself what am I after
This happiness outweighs the risk of the tragicness
So I know it's a gamble
I'm making a wish and I'm blowing the candles
(Chorus)
Hell no
Hell no
I said no to the people around me
Hell no
Hell no
None of yall know nothing about me
Oh no
Oh no
I'm feeling the rythm in the down beat

So low
I'm so low
Opportunitys knockin loudly
