

Yes (I'll Be Your Baby)

[Laura Izibor](#)

I know you're shy, guess what, so am I
But some things you can't deny
When you look into my eyes then you'll realize
I'm gonna be the one that makes you break
Gonna be the one that makes you shake And yes, I'll be your baby
And no, no buts or maybes
I know I ain't known you that long
But I feel as though we belong I'll be your baby Now why you standing all the way over there?
Come a little bit closer, ain't no need to be scared
I got that something, you got that something special
Maybe if we combined who knows what we'll find And yes, I'll be your baby
And no, no buts or maybes
I know I ain't known you that long
But I feel as though we belong I'll be your, your baby, ooh, oh yeah And yes, I'll be your baby
And no, no buts or maybes
I know I ain't known you that long
But I feel as though we belong And yes, I'll be your baby
And no, no buts or maybes
I know I ain't known you that long
But I feel as though we belong And yes, I'll be your baby
And no, no buts or maybes
I know I ain't known you that long
But I feel as though we belong
