

# Spinning Revolver (feat. Will Chase)

## Nashville Cast

Love it's a really big word  
But haven't you heard  
It's dangerous And you  
You think you got it locked down  
And figured out  
And buttoned up But I  
I been burned enough  
So I leaned enough  
To watch my back That's why  
I'm warning you  
What you're about to do  
Is deadly as Dancin' on the devils stove  
Playing with the fire below  
Pushin' your luck  
Dippin' your toe, in the water It's a pedal down to race the train  
Chasing down the hurricane  
A bullet in a spinnin' revolver Well the heart  
It's a fragile thing  
Hangin' on a string  
It don't take much  
And a soul  
It's a little bit strong  
It takes a little longer  
To use it up But when  
It all comes down  
'Cause it's gonna come down  
You're gonna look around and wonder  
How you got to where you're standing Right now Dancin on the devils stove  
Playing with the fire below  
Pushin' your luck  
Dippin' your toe, in the water It's a pedal down to race the train  
Chasing down the hurricane  
A bullet in a spinnin' revolver Dancin' on the devils stove  
Playing with the fire below  
Pushin' your luck  
Dippin' your toe in the water It's a pedal down to race the train  
Chasing down a hurricane  
A bullet in a spinnin' revolver A pedal down to race the train  
Chasing down a hurricane
