

The Models On T.V.

Raised Fist

Using money to convey power
Using money to convey dominance
We will restrict our intake of lies
Until we are completely innocent
(We are completely innocent) When media constructs the norms
And values of a culture
And you're following them blind and stupid
Let them fill your head with more garbage
(Fill your head with more garbage) Low self-esteem the perfect sellers dream
Let us all look like the models on TV
Low self-esteem the perfect sellers dream
Let us all look like the models on TV When you believe that you're worth nothing
It's for commercial functions to work
By lowing your self-esteem
You'll put more money in their purses
