

Phntm

Meltycanon

I stay in the night low key
You know that i follow my dreams
And my demons stay following me, oh, oh
Welcome to the night time
You might die
Dealing with a group like us
Nah you dont wanna roll with me, yah

Angels come around all the time, now
Different bodies different styles, wow
Deep in the ocean, sippin on potion, yeah
Movin with wings (i got them bands, and i got mans, yeah)

You should call me (you should call me)
On my phone at night (on my phone at night)
Ill be waiting for you (i'll be waiting for you)
I need you
I want what's in you

I need your love, veins, trust, venom, wings, angels, demons
Surrounded
I just wanna fly into a
Place where i can feel free
To do what ever i need too
Baby i need you
