Boiler

Pita

Looks like I'm 'a do everything myself
Maybe I could use some help
But hell, you want something done right
You gotta do it yourselfMaybe life is up and down
But my life's been what to now?
I crawled up your butt from hell
And that's when things got turned aroundIt used to be a lie and now it feels pathetic and now I get it
What's done is done, you just leave it alone and don't regret it
Sometimes some things turn into dumb things
And that's when you put your foot downWhy did I have to go and meet somebody like you?
Why do you have to go and hurt somebody like me?
How could you do somebody like that?
Hope you know that I'm never coming backLooks like I'ma do everything myself
Maybe I could use some help
But hell, if you want something done right
You just do it yourself, got it?Maybe life is up and down
But, but my life's been what to now? Got it?
I crawled up your butt somehow, got it?
And that's when shit got turned around, got itIt used to be a lie, so pathetic but now I get it
What's done is done, I know, you just leave it alone and don't regret it
But sometimes some things turn into dumb things
And that's when you put your foot downWhy did I have to go and meet somebody like you?
Why do you have to go and hurt somebody like me?
How could you do somebody like that?
Hope you know that I'm never coming backWhy did I have to go and meet somebody like you?
Why do you have to go and hurt somebody like me?
How could you do somebody like that?
Hope you know that I'm never coming backDepending on you is done
Giving to you is done
No more eating, no sleeping, no living
It's all just what giving to you and I'm doneDepending on you is done
And giving to you is done
No more eating, no sleeping, no living
It's all just what giving to you and I'm doneThe hiding from you is done
The lying from you is done
No more eating, no sleeping, no living
It's all just what giving to you and I'm doneWhy did I have to go and meet somebody like you?
Why do you have to go and hurt somebody like me?
How could you do somebody like that?

Hope you know that I'm never coming backWhy did I have to go and meet somebody like you?
Why do you have to go and hurt somebody like me?
How could you do somebody like that?
Hope you know that I'm never coming backBut why?
Why?
Why?
Why?Ladies and gentlemen
What you are experiencing is in fact
An inner lie man
I would like you to kick back
And think about everything you've just heard
