

Surround

Dada

There's a picture on my wall
A crack in the ceiling
Cigarette burns in my hall
I get the feeling That you surround me
That you surround me If I died a thousand times
My soul washed beside me
I will never be alone
You're always inside me And you surround me
And you surround me You surround me
And you surround me And you surround me
And you surround me And you surround me
And you surround me And you surround me
And you surround me
