solidarity

solidarity music

People of the world together
Join to serve the common cause
So it feeds us all forever
See to it that it's now yoursForward without forgetting
Where our strength can be seen now to be
When starving or when eating
It's forward not forgetting our solidarityBlack or white or brown or yellow
Leave your old disputes behind
Once you start talking to your fellow men
You'll soon be of one mindIf we want to make this certain
We'll need you and your support
It's yourselves you'll be deserting
If you rat on your own sortForward without forgetting
Where our strength can be seen now to be
When starving or when eating
It's forward not forgetting our solidarityAll the gang of those who rule us
Hope our quarrels never stop
Helping them to split and fool us
Just so they can remain on topForward without forgetting
Till the concrete question is hurled
When Starving or when eatingWhose tomorrow is tomorrow?
And whose world is the world
Solidarity
