Anti You

Blue Stahli

Another command to succumb,
To sucking you off with a smile.
A vanity culture like a congregation.
Identity dogmatism.
The image is always in style.
Stroking the ego with media masturbation.Conditioning to canonise.
Gospel of this vox populi.Force feeding,
Misleading,
I'll burn the alter
And I'll pass right through!Erasing,
Debasing,
I want to be the Anti You!A singular definition,
Of what it's supposed to be like.
An arrogant principle of validation.
You're pushing the masochism.
We're never to question the hive.
I'll be the nemesis of expectation.Refusing to regurgitate.
Accuse and excommunicate.Force feeding,
Misleading,
I'll burn the alter
And I'll pass right through!Erasing,
Debasing,
I want to be the Anti You!This narcissism is a system to intimidate,
Perpetuating overcompensatingyour self hate.[instumental]Force feeding,
Misleading,
I'll burn the alter
And I'll pass right through!Erasing,
Debasing,
I've got nothing to prove.Force feeding,
Misleading,
I'll burn the alter
And I'll pass right through!Erasing,
Debasing,
I want to be the Anti You!
