

# Turquoise

[Molly Zenobia](#)

Looking for a penny on an empty beach,  
I've been looking for a lover who has eyes to see,  
While we're there I wanna walk with you and hold your hand in the sun...  
in the sun...

IN THE SUN...

Turquoise colour I need to get clean,  
the forest burned and with it something inside me  
Looking for a way to leave the world today,  
while the world is gonna leave us all anyway,  
while I'm here I wanna walk with you and hold your hand in the sun...IN THE SUN...

Turquoise colour I need to get clean,  
the forest burned and with it something inside me

Together

Together

Together

Together

Together IN THE SUN...

I need to get clean

I need, I need, I need, I need, I need,

Turquoise colour I need to get clean,  
the forest burned and with it something inside me  
Looking for a way to leave the world today...
