Dance Off

Mbc

I swore tonight that I would behave like an actual civilized man
But when when you walked in and you made me rethink my whole plan, my whole plan
They always say you can get what you want but have to be willing to ask
Well in two more drinks I'll be ready to beg oh I swear oh I swearWant me to make any promises
Well I will
Want me take some more time with this
Well I will
Want me to say I've been wantin this
Well I will
I will
I willAll I know is as long as you stay you're not goin anywhere
We got a few friends waiting and it we're making them late I don't care I don't care
All I want is to wake up tomorrow not knowing how I got in your bed
And you've been thinking the same about me I can tell I can tellWant me to make any promises
Well I will
Want me take some more time with this
Well I will
Want me to say I've been wantin this
Well I will
I will
I will
