She Knows Now

Stephen Marley

And she?ll be sorry tomorrow
Cos she knows now what the next day will bring
She's crying for joy weeping in sorrows
Cos she knows now what the next day will bring
Now says she knows now what the next day will bring
Never let a woman tell you that she loves you
When she don't really care that much
Right not right not right yeah (3x)
Right not right not right
Never tell a woman that you love her
When you don't really care that much for her
She cryin cryin cryin (3x)
She cryin cryin cry
And she?ll be sorry tomorrow
Cos she knows now what the next day will bring
She's crying for joy, weeping in sorrows
Cos she knows now what the next day will bring
Now says she knows now what the next day will bring, hey
She feels as if she lost
Now she's paid the cost
She?s way below the not
Feeling in her heart
Pain in every thought
She's hurting from the start, yes
She?s hurting from the start
Pain in every thought
Feeling in her heart
Way below the not
Now she's paid the cost
Feels as if she?s lost, well

Cause now she?s alone now
It seems the world is on her shoulders and
She cryin cryin cryin (3x)
She cryin cryin cry
And she?s with child
She says it without pride
She bowed her head and sighed
As tears ran from her eyes

She?s hurting deep inside
She cryin cryin cry
But she?ll be sorry tomorrow
Cos she knows now what the next day will bring
She's crying for joy weeping in sorrows
Cos she knows now what the next day will bring
Let?s says she knows now what the next day will bring
It?s better to love and lost than not to love at all
She thought that if she loved him he would love her from his heart, hey
Cause that?s what she?s been taught, but now she paid the cost
Cause love sometimes can be so blind, it hurts your very heart
And this world can be so cold
Now she?s all alone, yeah
And she cryin cryin cryin
She cryin cryin cryin (2x)
She cryin cryin cry
But time is longer than rope
And where there is life there is hope
So keep your head up high
And don?t give up the fight
Just try and try and try
She try and try and try
And Jah love is there for her
So she?ll be out there tomorrow.
