

# Pale Moonlight (How Many Times)

[Stephen Marley](#)

How many times I told you I love you?  
And now you wanna say that we are through  
What more can I do?  
What more can I say to you? Now you're gone

Do you remember that first night we met?  
That was a moment I never will forget  
Love was at first sight, and you came walking  
through the pale- pale moonlight

P-p-pale, p-p-pale, Pale moonlight  
Do-do-do-wapchoo-wapchoo wap do [x3]  
Stoodildoodlewapchoo - wapchoo wap do

How many times I told you I love you  
But now you want say that we are through  
What more can I do?  
What more can I say to you? Now you're gone

Do you remember that first night we met?  
That was a moment I never will forget  
Love was at first sight, and you came walking  
through the pale- pale moonlight

P-p-pale, p-p-pale, Pale moonlight  
Do-do-do-wapchoo-wapchoo wap do [x3]  
Stoodildoodlewapchoo - wapchoo wap do

How many times I told you I love you  
But now you want say that we are through  
What more can I do?  
What more can I say to you?
