

# Captain's Refusal

**Ed Motta**

You had your turn when the captain refused  
To see how the ship was burnt that night  
All mission wise (don't recall the date)  
They got me confused Response to a charge, they blamed me  
The wrong man walks  
Returning  
Where the story ends  
Who will never?  
Calling from Bonn(phone tapped for so long)  
An esteem to preserve  
I didn't expect the crew was  
Bribed there before Returning  
Where the story ends  
Rough styrofoam junk  
They float in
