

Water

Sepultura

Do not believe it only because you've heard it before
Simply because it's spoken and rumored
One and all, live up to it
One and all, live up to it
One and all
One and all
Do not believe it simply because it's written in books
Let us understand our own destiny
The seekers will always seek out the truth
We are what we make of ourselves
One and all, live up to it
One and all, live up to it
One and all
One and all
