

Hold Me Down

Mansionair

(feat. Revier)

I won't hold my finger in the air
And tell you which the way the wind blows
For I have tried so many times
Damn that look in your eyes

Hold me down hold
Hold me down hold

Damn it but don't you know that I will be there
Donâ€™t know that I will be there
Donâ€™t know that I will be there
Donâ€™t know that I will be there

I walk the streets
Moonlight hanging above me
Haunting it's way through these dreams
And you've told me so many times
That this is the place we lose our minds

Hold me down hold
Hold me down hold
Hold me down hold
Hold me down hold

Damn it but don't you know that I will be there
Know that I will be there
Know that I will be there

Know that I will be there
Know that I will be there

Hold me down hold
Hold me down hold
Hold me down hold
Hold me down hold

That I will be there
