

# War (Instrumental)

## Jack Beats

No matter what they say,  
We'll do it anyway.  
You can shoot us down,  
But we were born this way.  
We go to war each day,  
It seems to call our name.  
Down the same old road again.  
Down the same old road again.  
Down the same old road again.  
No matter what they say,  
We'll do it anyway.  
You can shoot us down,  
But we were born this way.  
We go to war each day,  
It seems to call our name.  
Down the same old road again.  
Baby here's where the story ends,  
Down the same old road again.  
Baby here's where the story ends,  
Down the same old road again.  
Down the same old road again,  
Down the same old road again.  
No matter what they say,  
We'll do it anyway.  
You can shoot us down,  
But we were born this way.  
We go to war each day,  
It seems to call our name.  
Down the same old road again.  
Down the same old road again.  
Baby here's where the story ends,  
Down the same old road again.  
Down the same old road again,  
Down the same old road again.
