

# Change

## Raze

The closer I walk along this path with Thee  
I realize I'm not what I seem  
I'm not perfect, I know it's true  
I wanna walk the way You want me to But it took some time for me to see  
What I really need is change Change, change  
Lord please help me to change  
Change, change  
I need You, Lord  
Help me to change You understand my purpose  
You understand my dreams  
You see inside there is a longing  
For a relationship that's real Change, change  
Lord please help me to change  
Change, change  
I need You, Lord  
Help me to change Now I find that as I draw near  
The evidence grows strangely clear  
To achieve a closeness will require a change in me  
I don't know what You see in me  
But the love of You releases me  
Closer still I find there's a place for me Change, change  
Lord please help me to change  
Change, change  
I need You, Lord  
Help me to change
