Headlock.

Esser

Oh you got me in a headlock
Nothing in the world's gonna help me now

Trip me in the carpet like a piece of dirt
If the words fail then you just floored me
I've got a problem it's called livin
When will I learn that you're no good for me
Ohh you got me in the right state
You got me messin up all my plans
Ohh you got me in the right state
You've got me livin like a desperate man

Ohh you've got me in a headlock
Nothing in the world's gonna help me now
Ohh you've got me in a headlock
Nothing in the world's gonna help me now

Bury me sand like a mackin stallion
You've notice my arms haven't move must lately
You press the button and I start dancing
I keep on coming back just for you to hate me
Oh you've got me in the right state
You got me messin up all my moves
Oh you've got me in the right state
You've got in livin like a desperate youth

Ohh you've got me in a headlock
Nothing in the world's gonna help me now
Ohh you've got me in a headlock
Nothing in the world's gonna help me now
(Now now now now now now now now now now now now now)

Round house kicks keep knockin me backwards
You're desperate world is bringing me down
I'm gonna land house full of punches
I'm sick and tired of being kicked around

Ohh you've me in a headlock
Nothing in the world's gonna help me now
(repeat 4 X)
