My Ruin

The Absence

Inside my shadow
I can hear you, am I near you?
Inside my shadow
I can smell you, can I tell you?Inside my shadow
I can love you, think I need you
Inside my shadow
I can feel you, I've embraced youAm I real?
Am I real?Save my ruin and us
My world has turned to rust
Save my ruin and us
My world has turned to rustIf there's tomorrow
Would you give me? Please forgive me
If there's tomorrow
You'd be buried and that just scares meAm I real?
Am I real?Save my ruin and us
My world has turned to rust
Save my ruin and us
My world has turned to rust
Save my world, my worldSave my ruin and us
My world has turned to rust
Save my ruin and us
My world has turned to rust
Save my ruin, my world, my world
