

Crush

Anthrax

Now you see me, now you don't
Go before I am the goat
Get away with murder
Kill me when you're through
Do I have to give up me
To be loved by you?
Get away with murder
What do I have to do?
Do I have to give up me
To be loved by you?
To be loved by you
To be loved by you
To be loved by you
From the smallest taste I use
From the smallest taste I lose
Won't you crush on me? Crush on me
Crush on me, crush on me
Crush on me, crush on me
Crush on me, crush on
Pile your dead on top of me
Tape my eyes so I can't see
Get away with murder
Kill me when you're through
Do I have to give up me
To be loved by you?
You get away with murder
What do I have to do?
Do I have to give up me
To be loved by you?
To be loved by you
To be loved by you
To be loved by you
From the smallest taste I use
From the smallest taste I lose
Won't you crush on me? Crush on me
Crush on me, crush on me
Crush on me, crush on me
Crush on me, crush on
I've been waiting for today

I can't touch you when you're far away
Nothin' makes me feel this way
Except hate but that fades away
From the smallest taste I use
From the smallest taste I lose
Won't you crush on me? Crush on me
Crush on me, crush on me
Crush on me, crush on me
Crush on me, crush on
I've been waiting for today
I can't touch you when you're far away
Nothin' makes me feel this way
Except hate but that fades away
