My Need

Soilwork

Absorbed in life's eternal wheel
Feel the energy flow within
Energy in which you most certainly need
No one can bring you downA chance to be spinning in dreams
Exists in your inner fantasyI wanna search beyond
I wanna search for inner peace
I wanna dig a hold deep down
To find my inner needWelcome to a bright engage
Face the light of inner rage
Energy in which you most certainly need
No one can bring you downInhale a breeze of passion
And sink deep into the well of lifeI wanna search beyond
I wanna search for inner peace
I wanna dig a hold deep down
To find my inner needEnergy in which you most certainly need
No one can bring you downAbsorbed in life's eternal wheel
Feel the energy flow within
Energy in which you most certainly need
No one can bring you down
