treat

Kasabian

Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treatWhat is this that stands before me
Shaking in a mirror
He has come my evil twin
Got me jumping out my skin
Forgive me, where's my manners?
Please allow my introduction
'Cause I am gonna get you hit
I am gonna get you litReach out and touch me
'Cause I got to
I got to knowEverybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
Work it like a treat
Everybody!
Work it like a treat
Everybody!
Work it like a treat
Everybody!I work itI'm stood here naked with a junkie sinking margaritas
I swear, I don't remember anything
where were we last i think we
Separated deep in Leicester
How could you ditch me in the state I'm in?And if you want to witness what goes on behind the curtain

He is just as cracked as you
So be careful if you doReach out and touch me
'Cause I got to
I got to goEverybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
Work it like a treat
Everybody!
Work it like a treat
Everybody!
Work it like a treat
Everybody!Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
I said now
Everybody knows I work it
Work it like a treat
I work it
I work it
I work it
