Here's To You

Brooke Fraser

Cheers to the furrows on our brow
To each hard won victory
Cheers to the losses that grew us up
Killed our pride and filled our cup
Cheers to the friendships well worn in
That time nor distance alter
Here's to the sleepers we'll see again
Find company in memoria
Open your mouth and sing out your song
Life is short as the day is long
I can't leave you my body, but I'll leave you a tune
This is my legacy, cheers to you
Cheers to the passing of our youth
And the death of lust not one day
A toast to the lessons not yet learned
And to the trials that will teach them
Open your mouth and sing out your song
Life is short as the day is long
I can't leave you my body but I'll leave you a tune
This is my legacy, cheers to you
Open your mouth and sing out your song
Life is short as the day is long
I can't leave you my body but I'll leave you a tune
Open your mouth and sing out your song
Life is short as the day is long
I can't leave you my body but I'll leave you a tune
This is my legacy, this is my legacy
This is my legacy, cheers to you
