Suffer

Dogwood

Independent, I leave you now
To drown in desolation
Oblivious to no onePerpetual comparison
You realized when I left
That you were doneSuffer 'cause this
Would be your fault
I know its just another lieYou expect me to succumb
Snuff your insecurities
You bounce from friend to friend
Youre nothing but a memory
Of treasure lostWe stumbled side by side
We all tried to ignore
The promises you never keptYou realized when I left
That you were wrong
Youre wrong, come on
